

- 
- The diagram shows a rectangular sheet with a light blue background. A solid light blue border, 2 mm wide, surrounds the entire sheet. Inside this border, there is a white rectangular area. A horizontal dashed line, representing a cut line, divides the white area into two equal horizontal sections. A vertical dotted line, representing a fold line, is positioned on the right side of the white area, closer to the right edge than the left edge. The legend in the bottom right corner explains these elements: a light blue square for the 2 mm drop field, a dashed line for the cut line, a pink square for the 3 mm safety margin, a white square for the safe field, and a dotted line for the fold line.
-  - pole spadu (2 mm)
 -  - linia cięcia
 -  - margines bezpieczeństwa (3 mm)
 -  - pole bezpieczne
 -  - linia zgięcia
